

ISEE Anti-Racism Task Force Committee

- The committee was established in August 2020 with the mission to support ISEE membership in facilitating rigorous science on the sources and health impacts of racial inequities in environmental exposures with the potential to inform effective policies and interventions.
- Our goal is to:
 - a. Provide opportunities to support career progression to scholars from underrepresented backgrounds in the quantitative sciences;
 - b. Integrate the study of race and structural racism into our science rather than added as an afterthought or considered a small niche within the field.

Recent Accomplishments:

- Hosted and organized *Structural Racism and Population Environmental Health: A Panel Discussion* at ISEE Annual (virtual) Meeting, August 25, 2020
- We recently organized online screenings of and expert-led discussion about the award-winning documentary series *Race: The Power of an Illusion*.

CHAIRS

**Devon
Payne-Sturges**

**Margaret
Hicken**

Please join us for the ARTF sponsored keynote plenary, "Slow violence : Place, Race, and Local Environmental Inequity" on Aug 25th featuring Catherine Coleman Flowers, Founder of the Center for Rural Enterprise and Environmental Justice and author of the book *Waste*, and Danielle Purifoy, lawyer and assistant professor of Geography at The University of North Carolina at Chapel Hill.

Please feel free to ask questions in the chatbox. We are monitoring the chat and will answer as soon as we can.
