Time (EDT, GMT-4)	Statue of Liberty Hall (Hall 1)	Brooklyn Bridge Hall (Hall 2)	Times Square Hall (Hall 3)	Empire State Building Hall (Hall 4)	Grand Central Hall (Hall 5)
-------------------	---------------------------------	-------------------------------	----------------------------	-------------------------------------	-----------------------------

AUGUST 23 - MONDAY

07:30 - 09:00	<p><b>SYMPOSIUM 1</b></p> <p>Health Effects of Traffic-Related Air Pollution: Assessing the Evidence in an Evolving and Complex World  <i>Chairs: Barbara Hoffmann, Germany &amp; Fred Lurmann, United States</i>            Traffic-Related Air Pollution: A Moving Target, <i>Jeffrey R Brook, Canada</i>            Systematic Methods to Select and Review Epidemiological Literature on the Health Effects of Long-term Exposure to TRAP, <i>Allison P Patton, United States</i>            Results of an HIE Systematic Review on the Health Effects of Long-term Exposure to Traffic-Related Air Pollution, <i>Hanna Hoopani, United States</i>            Knowledge on adverse effects of traffic-related air pollution: have we filled the gap? What more do we need to know?, <i>Francesco Forastiere, Italy</i>            Key Policy Relevant Questions on Traffic and Health, <i>Chad Richard Bailey, United States</i></p> <p>Discussants:  <i>Daniel Greenbaum, United States</i>  <i>Haneen Khreis, United States</i>  <i>Annette Peters, Germany</i></p>	<p><b>PANEL DISCUSSION 1</b></p> <p>Conflict-of-Interest and Disclosure in Epidemiology            Chair: <i>Colin Soskolne, Canada</i></p> <p><i>Juan Pablo Ramos-Banilla, Colombia</i>  <i>Daniele Mandrioli, Italy</i>  <i>Lisa Bero, United States</i>  <i>Carl Cranor, United States</i></p>	<p><b>E-POSTER DISCUSSION 1</b></p> <p>Impacts of Climate-Related Exposures on Human Health            Chairs: <i>Kate Burrows, United States &amp; Daniel Carrion, United States</i></p> <p>Long-term exposure to specific humidity and cardiovascular disease hospitalizations in the US Medicare population, <i>Jochem O Klomparek, United States</i>            Spatio-temporal pattern and climatic determinants of Visceral Leishmaniasis in Italy, <i>Giovanile Moirano, Italy</i>            A cold-health watch and warning system, application to the province of Quebec, <i>Bixun Yan, Canada</i>            Association between ambient temperature and sex offense: A case-crossover study in seven large US cities, 2007-2017, <i>Rongbin Xu, Australia</i>            The Effect of Climate Variables on the Incidence of Cutaneous Leishmaniasis in Isfahan, Central Iran, <i>Narges Khanjani, Iran</i>            Differential Risk Factors of Climate Change, Health Vulnerabilities and Outreach Opportunities in the Eastern Caribbean, <i>Netanya Greene, Saint Kitts and Nevis</i></p>	<p><b>E-POSTER DISCUSSION 2</b></p> <p>Environmental Risk Factors for Chronic Kidney Disease            Chairs: <i>Xu Gao, China &amp; Emile Whalbeh, Lebanon</i></p> <p>Exposure to non-essential metals and albuminuria: exploring causal associations under a Mendelian randomization framework, <i>Maria Grau Perez, Spain</i>            Association between blood and urine manganese levels and cardiorenal outcomes in adolescents: NHANES 2013-2018, <i>Maria D Pollitts, United States</i>            Effects of hot weather on kidney disease morbidity and mortality: A systematic review and meta-analysis of epidemiological evidence, <i>Jingwen Liu, Australia</i>            Short-term Exposure to Air pollution and the Attributable Risk of Emergency Room Visits for Kidney Diseases, <i>Whanhee Lee, United States</i>            The association between Air Pollution and Kidney Function: results from the Korea National Health and Nutrition Examination Survey, <i>Eunhee Ha, South Korea</i></p>	<p><b>MEET THE ISEE PRESIDENT 1</b></p> <p><i>ISEE President, Mark Nieuwenhuijsen, Spain</i>  <i>ISEE President-Elect, Andrea Baccarelli, United States</i></p>
08:30 - 09:30	<p>MORNING NETWORK &amp; E-POSTER VIEWING            Poster Viewing Groups (PVG): PVG 1 / PVG 2 / PVG 3 / PVG 4 / PVG 5</p>				
09:30 - 11:00	<p><b>KEYNOTE SESSION 1</b></p> <p><i>Chairs: Joan Casey, United States &amp; Marianthi-Anna Kioumourtzoglou, United States</i></p> <p>When epidemiology meets climate science: new paths to address current and future challenges in climate change research  <i>Ana Maria Vicado-Cabrera, Switzerland</i>            Advancing Environmental Epidemiology through Data Science Innovations: Current State and Future Challenges  <i>Kiros Berhane, United States</i></p>				
11:00 - 11:30	<p><b>BREAK</b></p>				
11:30 - 13:00	<p><b>SYMPOSIUM 2</b></p> <p>Environmental Health Inequalities in Indigenous Communities: Lessons and Opportunities  <i>Chairs: Joseph Siragata Yracheta, United States &amp; Jada L. Brooks, United States</i>            Gene-environmental research in indigenous communities: sovereignty, data sharing, and community-relevant research, <i>Joseph Siragata Yracheta, United States</i>            Geographic and dietary differences of urinary uranium levels in the Strong Heart Family Study, <i>Kevin Patrick Patterson, United States</i>            Air pollution in American Indian vs. Non-American Indian communities, <i>Maggie Li, United States</i>            Regional and temporal trends in exposure to ambient air pollution: Findings from the Strong Heart Study, <i>Jada L. Brooks, United States</i>            Metals and cardiometabolic disease in American Indian communities: from observations to interventions, <i>Ana Navas-Acien, United States</i></p>	<p><b>SYMPOSIUM 3</b></p> <p>Maximizing the Contributions of Epidemiologic Research to Policy: Selecting, Designing, and Analyzing Influential Studies  <i>Chairs: Kurt Straif, Spain &amp; David A Savitz, United States</i>            Planning Epidemiologic Research in Anticipation of Future Evaluations, <i>Kurt Straif, Spain</i>            Design Strategies for Generating Highly Influential Studies, <i>David A Savitz, United States</i>            What Characteristics of Epidemiologic Evidence Correlate with Study Usefulness or Influence? Experiences in Three Settings, <i>Ira Hartz Picciotto, United States</i>            Characteristics of Studies that have influence in policy – examples from PFAS epidemiology, <i>Tony Fletcher, United Kingdom</i></p>	<p><b>SYMPOSIUM 4</b></p> <p>Hallmarks of Environmental Insights  <i>Chairs: Annette Peters, Germany &amp; Andrea A Baccarelli, United States</i>            Hallmarks of Environmental Insights, <i>Annette Peters, Germany</i>            The Hallmarks of Aging and Environmental Insights: Molecular Mechanisms, <i>Andrea A Baccarelli, United States</i>            The Hallmarks of Environmental Insights and early childhood development, <i>Tim Nawrot, Belgium</i>            The hallmarks of environmental issues and the brain, <i>Jordi Sunyer, Spain</i>            Discussant: <i>Philippe Grandjean, Denmark</i></p>	<p><b>TRADITIONAL ORAL SESSION 1</b></p> <p>Air Pollution and Cardiometabolic Health  <i>Chairs: Barbara Hoffman, Germany &amp; Laura Corlin, United States</i>            Long-term air pollution exposure and sex-specific cardiometabolic health trajectories: the Framingham Offspring Study, <i>Laura Corlin, United States</i>            Association between Long-Term Exposure to Ambient Air Pollution and Lesion Ischemia in Atherosclerotic Patients, <i>Meng Wang, United States</i>            Habitual Physical Activity Is Associated with Reduced Risk of Cardiovascular Mortality Regardless of Ambient PM2.5 Exposure, <i>Xiang Qian Lao, China</i>            Long-term exposure to ambient PM2.5 leads to increased risk of Type 2 diabetes in urban Delhi and Chennai, India, <i>Siddhartha Mandal, India</i>            Short-term joint effects of multiple air pollutants on cardio-respiratory disease: hospital admissions in Cape Town, 2011 – 2016, <i>Termitope Christina Adebayo Ojo, Switzerland</i>            Associations between air pollution and temperature on glycated hemoglobin levels in women of child bearing age, <i>Mike Z. He, United States</i></p>	<p><b>TRADITIONAL ORAL SESSION 2</b></p> <p>Climate and Health: Co-benefits  <i>Chairs: Kristie Ebi, United States &amp; Lara Cushing, United States</i>            Heat alerts associated with higher rates of cause-specific hospital admissions but not lower mortality among older adults in the US, <i>Kate R. Weinberger, Canada</i>            Impacts of climate change mitigation and clean cooking access on future childhood stunting in India, <i>Asya Dimitrova, Spain</i>            Climate action for health and wellbeing in cities: systematic development of a database of peer-reviewed studies using machine learning methods, <i>Kristine Belesova, United Kingdom</i>            Air quality-related health co-benefits from Pennsylvania's entry into the Regional Greenhouse Gas Initiative (RGGI), <i>Hui Yang, United States</i>            Urban resilience: assessing climate vulnerabilities and risk perceptions in the city of Haifa, Israel, <i>Maya Negev, Israel</i>            Policy implications of research on "Climate and health: Co-benefits"            Discussion by <i>Audrey J de Nazelle, United Kingdom &amp; Gudrun Weinmayr, Germany</i></p>

ISEE 2021 ANNUAL CONFERENCE / SCIENTIFIC PROGRAM					
Time (EDT, GMT-4)	Statue of Liberty Hall (Hall 1)	Brooklyn Bridge Hall (Hall 2)	Times Square Hall (Hall 3)	Empire State Building Hall (Hall 4)	Grand Central Hall (Hall 5)
13:00 - 14:00	<p style="text-align: center;">NETWORKING &amp; E-POSTER VIEWING SLOTS Poster Viewing Groups (PVG): PVG 6 / PVG 7 / PVG 8 / PVG 9 / PVG 10</p>				
	<p style="text-align: center;"><b>LIGHTNING TALKS 1</b></p> <p style="text-align: center;"><b>Air Pollution and Adverse Health Outcomes</b> <i>Chairs: Adetoun Mustapha, Nigeria &amp; Imane Sekmoudi, Morocco</i></p> <p>Ambient air pollution and academic achievements among US children: a panel study, <i>Wenxin Lu, United States</i></p> <p>Associations between chronic air pollution and COVID-19 mortality: A patient-level analysis from New York City, <i>Darby Jack, United States</i></p> <p>Long-term air pollution exposure and diabetes incidence in two prospective cohorts of U.S. women, <i>Melissa R Puffer, United States</i></p> <p>Long-term exposure to low concentrations of air pollution and cause-specific mortality beyond cardiorespiratory disease: A Danish nationwide cohort study, <i>Rina So, Denmark</i></p> <p>Long-term exposure to ambient air pollution and bladder cancer incidence in a pooled European cohort: the ELAPSE project, <i>Jie Chen, Netherlands</i></p> <p>Long-term air pollution exposure and mortality due to dementia, Parkinson's Disease and psychiatric disorders: the ELAPSE project, <i>Zorana Jovanovic Andersen, Denmark</i></p> <p>Positive attitude, low level of knowledge and inappropriate practices towards air pollution: CAP study in Colombian children and adolescents, <i>Nicolas Calle, Colombia</i></p> <p>Using Satellite Data for Environmental Justice Efforts in California, <i>Laura Gladson, United States</i></p> <p>Developing an air pollution exposure surveillance system in England; a new national vulnerability indicator, <i>Helen Crabbe, United Kingdom</i></p>	<p style="text-align: center;"><b>LIGHTNING TALKS 2</b></p> <p style="text-align: center;"><b>Air Pollution and Cardiovascular Outcomes</b> <i>Chairs: Annette Peters, Germany &amp; Leonard Stockfelt, Sweden</i></p> <p>Long-term air pollution exposure and incident stroke in American elderly population: a national cohort study, <i>Tszhan Ma, United States</i></p> <p>Quantile regression to examine the association of air pollution with subclinical atherosclerosis in an adolescent population, <i>Adjani Antonela Peralta, United States</i></p> <p>Associations between long-term fine particulate matter exposure and hospital procedures in heart failure patients, <i>Cavin Ward-Coviness, United States</i></p> <p>The Effects of Short- and Long-term Exposures to Air Pollution on microRNA in Participants of the Normative Aging Study (NAS), <i>Mahdiq Danesh Yazdi, United States</i></p> <p>The Association Between PM2.5 and Blood Pressure in Indonesia, <i>Jaime Madrigano, United States</i></p> <p>Associations between Long-term UFP Exposure and Certain Inflammatory Biomarkers and Blood Lipid Indicators: An Analysis Featuring Peak Exposure Metrics, <i>Cheng Lin, United States</i></p> <p>Associations between Air Pollution and County Level Cardiovascular Mortality in the United States by Ecoregions, <i>Daniel W Riggs, United States</i></p> <p>Methylation markers associated with air pollution exposure and cardiometabolic health in the Framingham Offspring Study, <i>Laura Corlin, United States</i></p> <p>Critical windows of perinatal particulate matter (PM2.5) exposure and preadolescent kidney function, <i>Maria José Rosa, United States</i></p>	<p style="text-align: center;"><b>PANEL DISCUSSION 2</b></p> <p style="text-align: center;"><b>Reflections on Academic Freedom, Scientific Controversy and Consensus Building in Environmental Health</b> <i>Chairs: Tony Fletcher, United Kingdom &amp; Mildred Maisonet Nogueiras, United States</i></p> <p><i>Agnes Soares da Silva, USA</i> <i>Barbara Hoffmann, Germany</i> <i>David Michaels, USA</i> <i>Maya Negev, Israel</i></p>	<p style="text-align: center;"><b>LIGHTNING TALKS 3</b></p> <p style="text-align: center;"><b>Climate-Related Exposures and Adverse Health Outcomes</b> <i>Chairs: Tarik Benmarhnia, United States &amp; Kate Burrows, United States</i></p> <p>The association between postnatal exposure to ambient temperature and rapid infant weight gain, <i>Raanan Raz, Israel</i></p> <p>Effect modification of omega-3 fatty acids on short-term associations between ambient air temperature and heart rate variability, <i>Alexandra Schneider, Germany</i></p> <p>Environmental quality characterization of public schools transformed into climate shelters in Barcelona: A pilot innovative study, <i>Mónica Ubalde López, Spain</i></p> <p>Local mortality impacts due to future air pollution under climate change scenarios in Mozambique, India, and Spain, <i>Vijendra Ingole, Spain</i></p> <p>The missing exposure-outcome link: "equivalent" outdoor ambient temperatures for assigning heat-health effects to individual-level temperature exposures in three U.S. cities, <i>Carina J. Gronlund, United States</i></p> <p>Evaluation of heat mitigation and adaptation behaviors in NYC during COVID-19, <i>Lauren Smalls Mantey, United States</i></p> <p>Wildfire smoke as a driver of covid-19 fatality rates? A synthetic control analysis of San Francisco Bay Area Counties, <i>Lana Schwarz, United States</i></p> <p>Associations Between Drought and Childhood Diarrhea in Low- and Middle-Income Countries, <i>Pin Wang, United States</i></p> <p>Differential Susceptibility to Aridity for Mortality Outcomes in South Africa: Application of Mixed-Effect Regression Tree Analysis to a Case-Only Design, <i>Matthew O. Gribble, United States</i></p>	<p style="text-align: center;"><b>PANEL DISCUSSION 3</b></p> <p style="text-align: center;"><b>The Critical Role Science-based, Validated Systematic Review Methods Lay to Inform Policy and Decision-Making to Protect Communities Disproportionately Impacted by Harmful Environmental Exposures</b> <i>Chair: Nicholas Chartres, United States</i></p> <p><i>Julene Lam, United States</i> <i>Lisa Bero, United States</i> <i>Tracey Woodruff, United States</i> <i>Susan L Norris, United States</i></p>
14:00 - 15:00					
15:00 - 15:30	BREAK				
	<p style="text-align: center;"><b>SYMPOSIUM 5</b></p> <p style="text-align: center;"><b>Climate Change, Pollen Exposure Dynamics and Burden of Allergic Disease in North America</b> <i>Chairs: Lew H Ziska, United States &amp; Amir Sapkota, United States</i></p> <p>Evidence for recent climate change and carbon dioxide influence on plant based aero-allergens in the Northern Hemisphere, <i>Lew H Ziska, United States</i></p> <p>Recent advancements in the use of remote sensing observations to inform ground level pollen dynamics, <i>Yuyu Zhou, United States</i></p> <p>Changes in Timing of Spring Onset, Pollen Exposure, and Burden of Allergic Disease in the Northeastern United States, <i>Amir Sapkota, United States</i></p> <p>A machine-learning Strategy for Generating Pollen Estimates and Forecasts in North America, <i>Fiona Lo, United States</i></p>	<p style="text-align: center;"><b>SYMPOSIUM 6</b></p> <p style="text-align: center;"><b>How will the Covid-19 Pandemic Change Environmental Epidemiology Research?</b> <i>Chairs: David A. Savitz, United States &amp; Manolis Kogevinas, Spain</i></p> <p>Changes in the research scope of environmental epidemiology, <i>David A Savitz, United States</i></p> <p>Changes in environmental epidemiology research methods due to COVID-19, <i>Cathryn Tonne, Spain</i></p> <p>New directions in global environmental health, <i>Manolis Kogevinas, Spain</i></p> <p><i>Discussions:</i> <i>Brooke Anderson, United States</i> <i>Andrea Boccardo, United States</i> <i>Mauricio Barrato, Brazil</i> <i>Thomas Clasen, United States</i> <i>Maureen Lichtveld, United States</i> <i>Gregory Wellenius, United States</i></p>	<p style="text-align: center;"><b>TRADITIONAL ORAL SESSION 3</b></p> <p style="text-align: center;"><b>Air Pollution and Neurodegeneration</b> <i>Chairs: Sara Adar, United States &amp; Aisha Dickerson, United States</i></p> <p>Multi-air pollutant exposure and amyotrophic lateral sclerosis (ALS) diagnosis in Denmark, <i>Robbie M Parks, United States</i></p> <p>Long-term exposure to ambient air pollution is associated with neuropathologic change of Alzheimer's Disease at Autopsy, <i>Zhenjiang Li, United States</i></p> <p>Air pollution and plasma amyloid beta: Evidence from the Ginkgo Evaluation of Memory Study, <i>Anjum Hajat, United States</i></p> <p>The Effect of Ultrafine Particles (PM0.1) on Neurological Disorders in New York State, <i>Ian Ryan, United States</i></p> <p>Associations of Long-Term Air Pollution Exposure with Incident Dementia among Older U.S. Adults: The Health and Retirement Study, <i>Boya Zhang, United States</i></p> <p>Annual dementia incidence and socioeconomic costs attributable to fine particulate matter (PM2.5) exposure in Sweden, <i>Hedi Krit, Sweden</i></p>	<p style="text-align: center;"><b>TRADITIONAL ORAL SESSION 4</b></p> <p style="text-align: center;"><b>Causal Inference, Novel Analysis Approaches, and Their Potential Role in Evidence Syntheses in Environmental Epidemiology</b> <i>Chairs: Andreas Neophytou, United States &amp; Mary Willis, United States</i></p> <p>Maternal exposure to traffic-related pollutants during pregnancy and birth weight: using machine-learning methods to achieve balance in inverse-probability weights, <i>Shuxin Dang, United States</i></p> <p>Long-term Exposure to Fine Particulate Matter is Causally Linked to Mortality Among the Elderly, <i>Francesca Dominici, United States</i></p> <p>Perinatal health impacts of air pollution mitigation policies: applying g formula to preterm birth in Temuco/Padre Las Casas, Chile, <i>Estela Blanco, Chile</i></p> <p>Risk of bias assessments and evidence syntheses for observational epidemiologic studies of environmental and occupational exposures: strengths and limitations, <i>Kyle Steenland, United States</i></p> <p>Policy implications of research on "Causal inference, novel analysis approaches, and their potential role in evidence syntheses in environmental epidemiology" Discussion by <i>Hanna Boogaard, United States</i></p>	<p style="text-align: center;"><b>TRADITIONAL ORAL SESSION 5</b></p> <p style="text-align: center;"><b>Climate and Health: Planetary Health</b> <i>Chairs: Joan A Casey, United States &amp; Amruta Nori-Sarma, United States</i></p> <p>Long-term impacts of Atlantic hurricanes on asthma exacerbations among children with asthma in the eastern United States, <i>Kate R. Weinberger, Canada</i></p> <p>Strategies for reducing the burden of climate-sensitive diarrheal infections on young children, <i>Anna Dimitova, United States</i></p> <p>The association of childhood exposure to crop yield variation and survival in a subsistence farming population in Burkina Faso, <i>Kristine Belesova, United Kingdom</i></p> <p>Extreme Precipitation and Legionnaires Disease Hospitalizations in Boston, Massachusetts from 2002-2012, <i>Timothy J Wade, United States</i></p> <p>Tropical cyclones and mortality in the United States, <i>Robbie M Parks, United States</i></p> <p>Ethical implications of research on "Climate and health: Planetary Health" Discussion by <i>Tim Takaro, Canada &amp; Laura Geer, United States</i></p>
15:30 - 17:00					
17:00 - 17:30	BREAK

ISEE 2021 ANNUAL CONFERENCE / SCIENTIFIC PROGRAM

Time (EDT, GMT-4)	Statue of Liberty Hall (Hall 1)	Brooklyn Bridge Hall (Hall 2)	Times Square Hall (Hall 3)	Empire State Building Hall (Hall 4)	Grand Central Hall (Hall 5)
17:30 - 18:30	<p><b>LIGHTNING TALKS 4</b></p> <p><b>The Role of Built Environment on Health</b> Chairs: <i>Audrey de Nozelle, United Kingdom &amp; Rena Jones, United States</i></p> <p>Associations of urban environment features with hypertension and blood pressure across 230 Latin American cities, <i>Ione Avila-Palencia, United States</i> Socioeconomic disadvantage is associated with increased risk of mortality from COVID-19, <i>Timothy J Wade, United States</i> Associations between minute-level smartphone GPS-derived exposure to greenness and consumer wearable-derived physical activity in the Nurses' Health Study 3, <i>Grete E Witt, United States</i> Impacts of green space on mental health during the COVID-19 pandemic in Denver, <i>Colleen E Reid, United States</i> Time for 'Green' during COVID-19? A nationally-representative study of nature, connectedness and coping in Australia during the COVID-19 pandemic, <i>Xiaoqi Feng, Australia</i> A systematic review of studies on the role of age and gender in associations between greenspace and mental health, <i>Tafajlo Akter Mowly, Australia</i> Green walkability and physical activity in UK Biobank, <i>Charlotte J Roscoe, United States</i> The impact of greenspace and air pollution exposure on incident dementia in the Ginkgo Evaluation of Memory Study, <i>Cindy S. Leary, United States</i> Outdoor artificial light at night, air pollution, and childhood acute lymphoblastic leukemia, <i>Charlie Zhang, United States</i> Social Determinants of Housing Quality for U.S. Immigrants: Intersections of Nativity, Race, and Socioeconomic Status, <i>MyDzung T Chu, United States</i></p>	<p><b>E-POSTER DISCUSSION 3</b></p> <p><b>Climate and Disparities</b> Chairs: <i>Brama Koné, Ivory Coast &amp; Jenni Shearston, United States</i></p> <p>Are Cooling Centers Optimally Placed to Serve Vulnerable Populations? An analysis of 77 US cities, <i>Quinn Adams, United States</i> Social and spatial variation in heatwave-related emergency department visits in Australia, <i>Robert Matthew Beatty, Australia</i> Exposure to heat during pregnancy and preterm birth in North Carolina: disparities by residential greenness, urbanicity, and socioeconomic status, <i>Ji-Young Son, United States</i> Socioeconomic level and associations between heat exposure and all-cause and cause-specific hospitalization in 1,814 Brazilian cities: A nationwide case-crossover study, <i>Rongbin Xu, Australia</i> Extreme temperature, health, and disability: A comparison of health effects between people with and without disabilities, <i>Sera Kim, South Korea</i> Health Disparities Among Older Adults Following Tropical Cyclone Exposure in Florida, USA, 1999-2016, <i>Kate Burrows, United States</i></p>	<p><b>E-POSTER DISCUSSION 4</b></p> <p><b>Environmental Justice - Disparities</b> Chairs: <i>Miranda Jones, United States &amp; Estela Blanco, Chile</i></p> <p>Environmental health, racial/ethnic health-disparity, and climate impacts of freight transport in the United States, <i>Maninder P.S. Thind, United States</i> Racial-ethnic Disparities in PM2.5 Exposure in California: Differences by Season and Daily Pollution Level, <i>Tianjun Lu, United States</i> Health and equity opportunities of commercial corridors revitalization in Colorado, <i>David Rojas, United States</i> Assessing how students' respiratory health mediates socioeconomic status and school building conditions' effects on students' performance, <i>Yi Lu, United States</i> Racial-ethnic disparities in exposure to NO2 and PM2.5 in the United States: Insights from spatial decomposition of ambient concentrations, <i>Jiawen Liu, United States</i> Forty years of road transport NOx emissions reductions in the contiguous United States: an environmental justice analysis, <i>Jaime Benavides, United States</i></p>	<p><b>E-POSTER DISCUSSION 5</b></p> <p><b>The Role of Diet in Ameliorating/Exacerbating Environmental Exposure Adverse Health Impacts</b> Chairs: <i>Chris Lim, United States &amp; Eleni Papadopoulou, Norway</i></p> <p>Vitamin D intake modifies the association of household air pollution exposure with maternal disorders of pregnancy, <i>A Kofi Amegah, Ghana</i> Dietary predictors of prenatal per- and poly-fluoroalkyl substances (PFAS) exposure, <i>Stephanie Eick, United States</i> Nutritional modulation of fetal susceptibility to IA5-associated gene expression underlying oxidative stress and inflammation in cord blood, <i>Jelajah Clark, United States</i> Dietary intake and blood concentrations of folate and folic acid in relation to serum per- and polyfluoroalkyl substances (PFAS) concentrations, <i>Yu Zhang, United States</i> Hair mercury levels, dietary intake of omega-3 fatty acids and ovarian reserve among women attending a fertility center, <i>Lidia Minguez Alarcon, United States</i> HBM4EU-MOM: Intervene to raise awareness to specific dietary recommendations and reduce prenatal exposure to mercury, <i>Sónia Namorado, Portugal</i></p>	<p><b>MEET THE ISEE PRESIDENT 2</b></p> <p><i>ISEE President, Mark Nieuwenhuijsen, Spain</i> <i>ISEE President-Elect, Andrea Baccarelli, United States</i></p>
18:30 - 19:00	BREAK				
19:00 - 20:30	<p><b>TRADITIONAL ORAL SESSION 6</b></p> <p><b>Bringing It All Back Home: Cancer and the Residential Environment</b> Chairs: <i>Julia Heck, United States &amp; Mary Ward, United States</i></p> <p>Neighborhood socioeconomic status and biomarkers among participants in the US-based Health Professionals' Follow-Up Study and Nurses' Health Study, <i>Hari S Iyer, United States</i> Screening-level assessment of cancer risk associated with ambient air exposure in Aamjivnaang First Nation, <i>Kristian Larsen, Canada</i> Ethylene oxide emissions and risk of breast cancer and Non-Hodgkin lymphoma in a large U.S. cohort, <i>Rena R. Jones, United States</i> Air pollution and breast cancer: an examination of modification by familial breast cancer risk, <i>Nicole M Nishoff, United States</i> Environmental and social risk factors in association with spatial clustering of childhood cancer incidence, <i>Anke Huels, United States</i> Residential proximity to animal feeding operations and risk of lymphohematopoietic cancers in the Iowa Women's Health Study, <i>Jared A Fisher, United States</i></p>	<p><b>TRADITIONAL ORAL SESSION 7</b></p> <p><b>Built Environment and Health</b> Chairs: <i>Keren Agoyshay, Israel &amp; Richard Remigio, United States</i></p> <p>Urban Environment and Growth and Obesity in Preschool Children from Six European Birth Cohorts, <i>Serena Fassati, Spain</i> A Cross-sectional Study of Brownfields and Birth Defects, <i>Kristen M Rappazzo, United States</i> Associations of greenspace and cardiorespiratory mortality are driven by private residential gardens: observational evidence from UK Biobank, <i>Charlotte J Roscoe, United States</i> Assessing the Effect of Ultraviolet Radiation, Residential Greenness and Air Pollution on Vitamin D Levels: A Cohort Study in China, <i>Haofan Zhang, China</i> More green, less lonely? A longitudinal cohort study, <i>Thomas Astell Burt, Australia</i> <b>Ethical implications of research on "Built environment and health"</b> Discussion by <i>Carl Grimes, United States &amp; Miguel Angel Karam, Mexico</i></p>	<p><b>TRADITIONAL ORAL SESSION 8</b></p> <p><b>Exposure Assessment: Air Pollution</b> Chairs: <i>Yuming Guo, Australia &amp; Rachel Thom, Australia</i></p> <p>New monitoring paradigms and designs for air pollution assessment in epidemiologic cohorts, <i>Sun Young Kim, South Korea</i> A Random Forest Model for PM2.5 Personal Exposure Assessment for a Chinese Cohort, <i>Yanwen Wang, China</i> Personal exposure to particulate matter in various modes of transport in Kathmandu, Nepal, <i>Binaya Kc, Nepal</i> Predictors of indoor PM2.5 and CO in an urban slum settlement in Fort Portal city, Uganda, <i>Winnifred K Kansiime, Uganda</i> A Deep Learning Approach for Meter-Scale Air Quality Estimation in Urban Environments Using Very High-Resolution Satellite Imagery, <i>Ala Akbari Asanjan, United States</i></p>	<p><b>TRADITIONAL ORAL SESSION 9</b></p> <p><b>Phthalate Exposures and Health</b> Chairs: <i>Nan Li, United States &amp; Nikolas Stratakis, United States</i></p> <p>Association between urinary concentration of phthalate metabolites and allergic disorders in Korean children: Korean National Environmental Health Survey (KoNEHS) 2015-2017, <i>Ju Yeon Lee, South Korea</i> Prenatal Maternal Phthalate Exposures and Trajectories of Childhood Adiposity from Four to Twelve Years, <i>Allison Kupscio, United States</i> Association of phthalate replacement DINCH metabolite concentrations with adiposity in a multi-site, multi-racial cohort of children, <i>Pamela L Ferguson, United States</i> The association of gestational and childhood phthalate exposure with adolescent hair cortisol: The HOME Study, <i>Joseph M Braun, United States</i> Assessment of metabolic perturbations associated with prenatal phthalate exposure among pregnant African American women, <i>Donghai Liang, United States</i> Pregnancy exposure to phthalates and placental DNA methylation in the French EDEN cohort, <i>Paulina Jedynak, France</i></p>	<p><b>TRADITIONAL ORAL SESSION 10</b></p> <p><b>Women's Environmental Health</b> Chairs: <i>Lauren Wise, United States &amp; Traci Bethes, United States</i></p> <p>Multiple exposures to persistent organic pollutants and diminished ovarian reserve: findings from a French case-control study, <i>Maximilien Gérard Walton, France</i> Associations of pregnancy per- and polyfluoroalkyl substance concentrations and fibroid changes across pregnancy: NICHD Fetal Growth Studies - Singletons cohort, <i>Susanna D Mitro, United States</i> Associations of Phthalates and Phenols, Telomere Length, and Breast Cancer in the Long Island Breast Cancer Study Project, <i>Xueying Zhang, United States</i> Exposure to particle radioactivity and breast cancer risk in a US-wide prospective cohort, <i>Alexandra J White, United States</i> Urinary Metals and Metal Mixtures and Incident Natural Menopause in Midlife Women: the Study of Women's Health Across the Nation, <i>Xin Wang, United States</i> Long-term particulate matter exposure and bone mineral density in the Women's Health Initiative, <i>Diddier Prado, United States</i></p>

ISEE 2021 ANNUAL CONFERENCE / SCIENTIFIC PROGRAM					
Time (EDT, GMT-4)	Statue of Liberty Hall (Hall 1)	Brooklyn Bridge Hall (Hall 2)	Times Square Hall (Hall 3)	Empire State Building Hall (Hall 4)	Grand Central Hall (Hall 5)
<b>AUGUST 24 - TUESDAY</b>					
07:30 - 08:30	<p><b>LIGHTNING TALKS 5</b></p> <p>Epidemiology of PFAS or Heavy Metals <i>Chairs: Tony Fletcher, United Kingdom &amp; Temitope Ayodeji Lanjani, Nigeria</i></p> <p>Cadmium exposure and coronary artery atherosclerosis, <i>Lars Barregard, Sweden</i> Association between cadmium and genotoxicity and oxidative stress risk biomarkers in a population of Northern Italy, <i>Teresa Urbano, Italy</i></p> <p>Arsenic Methylation and Body Composition among Pregnant Women in Rural Northern Bangladesh: The Pregnancy, Arsenic, and Immune Response (PAIR) Study, <i>Tyler J S Smith, United States</i></p> <p>Association between heavy metal exposure and liver function markers among Korean adults: Korean National Environmental Health Survey 2015 - 2017, <i>Kim Do Won, South Korea</i></p> <p>Association of childhood and perinatal blood metals with children gut microbiome in a Canadian gestation cohort, <i>Yike Shen, United States</i></p> <p>Poly- and perfluoroalkyl substances (PFAS) and lipidomics and inflammatory proteomics in the human EuroMix study, <i>Eleni Papadopoulou, Norway</i></p> <p>Physical activity modifies the association between prenatal perfluorooctanoic acid exposure and adolescent cardiometabolic risk, <i>Joseph M Braun, United States</i></p> <p>COVID-19 and perfluoroalkyl substances (PFAS) from contaminated drinking water in the Veneto Region (Italy): a spatial ecological analysis, <i>Tony Fletcher, United Kingdom</i></p> <p>Maternal levels of perfluoroalkyl substances (PFAS) during early pregnancy in relation to preeclampsia subtypes, <i>Paige Bommarito, United States</i></p> <p>Identifying periods of susceptibility to perfluoroalkyl substances and bone mineral density in early adolescence: the HOME Study, <i>Jessie P. Buckley, United States</i></p>	<p><b>LIGHTNING TALKS 6</b></p> <p>Exposure to Fine Particles and Adverse Health Outcomes <i>Chairs: Haidong Kan, China &amp; Sara Kress, Germany</i></p> <p>Associations between Reduced PM2.5 and Improved Health during China's Clean Air Actions since 2013, <i>Tao Xue, China</i></p> <p>Long-term exposure to ambient particulate matter components and mortality: results from six European administrative cohorts within the ELAPSE project, <i>Sophia Rodopoulou, Greece</i></p> <p>Long-term air pollution exposure and incident dementia in American elderly population: a national cohort study, <i>Lihua Shi, United States</i></p> <p>Exposure to particulate matter air pollution and age of menarche in a nationwide cohort of US girls, <i>Robert B Hood, United States</i></p> <p>Prenatal exposure to PM2.5 constituents and children's growth trajectory in the first two years: a birth cohort study, <i>Shuang Zhou, China</i></p> <p>Short-Term PM2.5 Exposure Impacts Cognitive Performance: A Longitudinal Repetited Measures Study of the Western US 2017-2018, <i>Stephanie E Cleland, United States</i></p> <p>Prenatal Air Pollution, Maternal Immune Activation, and Autism Spectrum Disorders, <i>Xin Yu, United States</i></p> <p>Long-term ambient PM2.5 and O3 reduced cognitive function in young adults as measured through the Lumosity brain training platform, <i>Lauren M Wyatt, United States</i></p> <p>Ambient air pollution and risk of daily hospital admission for anxiety in 56 Chinese cities, <i>Shaowei Wu, China</i></p> <p>Association between air pollution exposure and handgrip strength as a marker of frailty: findings from the French CONSTANCES cohort, <i>Benedicte Jacquemin, France</i></p>	<p><b>PANEL DISCUSSION 4</b></p> <p>Advancing Environmental Health Equity through Implementation Science <i>Chair: Gwen Callman, United States</i></p> <p><i>Lindsey Ann Martin, United States</i></p> <p><i>Gila Neta, United States</i></p> <p><i>Arun Bhatnagar, United States</i></p> <p><i>Tamara James-Todd, United States</i></p> <p><i>Lisa M. Thompson, United States</i></p>	<p><b>07:30 - 09:00</b></p> <p><b>TRADITIONAL ORAL SESSION 11</b></p> <p><b>Source-specific Air Pollution and Health</b> <i>Chairs: George Thurston, United States &amp; Xueying Zhang, United States</i></p> <p>Cardio-respiratory disease with contrasted air pollution levels in three municipalities of Abidjan district hospitals, Cote d'Ivoire, <i>Kouame Kouadio, Cote d'Ivoire</i></p> <p>Replacing wood with charcoal fuel prevents 1.7 million acute respiratory infections worldwide: evidence from 360,000 children in 30 low-and-middle-income countries, <i>Katherine E Woolley, United Kingdom</i></p> <p>Health Impact Assessment of PM2.5 control legislation in Korea, <i>Eunjin Oh, South Korea</i></p> <p>Global health burden of PM2.5, black and organic carbon aerosols, <i>Sourangsu Chowdhury, Germany</i></p> <p>Source-specific fine particulate matter and hospitalization due to myocardial infarction, <i>Rachel H. Tao, United States</i></p>	<p><b>E-POSTER DISCUSSION 6</b></p> <p>Household Air Pollution <i>Chairs: Pallavi Pant, United States &amp; Ya-Yun Cheng, United States</i></p> <p>Constructing clean cookstove stack in Ghana, <i>Theresa Afia Serwaa Tawiah, Ghana</i></p> <p>Estimation of long-term exposure to PM2.5 based on short-term personal measurements in mother-child pairs in rural Ghana, <i>Misbath Daouda, United States</i></p> <p>Maternal exposure to biomass fuel and birthweight in Kaduna, Northwestern Nigeria: Results from the Child Electronic Growth Monitoring System (CEGROMS), <i>Musa Abubakar Kana, United States</i></p> <p>Effects of an LPG stove intervention on gestational blood pressure: findings from Household Air Pollution Intervention Network randomized controlled trial, <i>Wenlu Ye, United States</i></p> <p>High Fidelity: Delivery and use of an LPG stove intervention during pregnancy in the HAPIN trial, <i>Ashlika K Quinn, United States</i></p> <p>Household air pollution and personal CO-PM2.5 relationships during cooking in the GRAPHOS cohort: important covariates include wearing compliance, <i>Mohammed Mujtaba, Ghana</i></p>
08:30 - 09:30	<p><b>MORNING NETWORK &amp; E-POSTER VIEWING</b></p> <p>Poster Viewing Groups (PVG): PVG 16 / PVG 17 / PVG 18 / PVG 19 / PVG 20</p>				
09:30 - 11:00	<p><b>KEYNOTE SESSION 2</b></p> <p><i>Chairs: Chang-Chuan Chan, Taiwan, Andrea Baccarelli, United States</i></p> <p>COVID-19 Containment and Reform for Health and Development Resilience: Taiwan Experiences <i>Chair-Jen Chen, Taiwan</i></p> <p>Omics in Environmental Epidemiology <i>Cavin Ward-Covines, United States</i></p>				
11:00 - 11:30	<b>BREAK</b>				
11:30 - 13:00	<p><b>SYMPOSIUM 7</b></p> <p>Presentation and Discussion of ISEE Principles for Evidence Synthesis and Evaluation in Environmental Health with Invited Feedback from Speakers of Major National and International Agencies Relying on Evidence Synthesis in Environmental Health - an ISEE Policy Committee Symposium <i>Chairs: Jonathan M Samet, United States &amp; Kurt Straif, Spain</i></p> <p>ISEE principles for evidence synthesis and evaluation in environmental health, <i>Kurt Straif, Spain</i></p> <p>Comments from the perspective of pertinent committees of the US National Academies of Sciences, <i>Jonathan M Samet, United States</i></p> <p>Evidence Synthesis and Integration Methods used in the US Environmental Protection Agency's (EPA) Integrated Risk Information System (IRIS) Program, <i>Kristina Thayer, United States</i></p> <p>Approach to assessing the certainty of evidence in environment and health - the case of WHO global air quality guidelines, <i>Dorota Jarosinska, Germany</i></p> <p>ISEE principles for evidence synthesis and evaluation in environmental health - Perspectives from HEI, <i>Daniel Greenbaum, United States</i></p> <p>ISEE principles for evidence synthesis and evaluation in environmental health: comments from experience on advisory and regulatory committees, <i>Neil Pearce, United Kingdom</i></p> <p>ISEE principles for evidence synthesis and evaluation in environmental health: comments from the perspective of the Cochrane Collaboration, <i>Lisa Bero, United States</i></p> <p>Fifty years of comprehensive cancer hazard identification: the IARC (Monographs) Programme's systematic review and synthesis across multiple evidence streams, <i>Mary K Schaubauer Berigan, France</i></p>	<p><b>SYMPOSIUM 8</b></p> <p>Air pollution and Climate impacts in the Eastern Mediterranean Region <i>Chairs: Narges Khanjani, Iran &amp; Wael Al-delaimy, United States</i></p> <p>Concurrent heatwaves and extreme Ozone (O3) episodes: combined atmospheric patterns and impact on human health, <i>Kenza Khamsi, Morocco</i></p> <p>Machine-learning regression for forecasting air pollution, <i>Oumaima Bouakline, Morocco</i></p> <p>Multiple Air pollutant exposure and lung cancer in Tehran, Iran, <i>Narges Khanjani, Iran</i></p> <p>Potential health and economic benefits of air quality improvements in Morocco: A simulation based on particles during the COVID19 lockdown, <i>Imane Sekmoudi, Morocco</i></p> <p>Environmental Exposure in Lebanese Infants (EEI): A Longitudinal Birth Cohort- Pilot Study, <i>Myriam Mrid Hachiké, Lebanon</i></p> <p>Health Hazards of occupational exposure to airborne biological pollutants on workers in Wastewater treatment plant, <i>Amal Saad Hussein, Egypt</i></p>	<p><b>SYMPOSIUM 9</b></p> <p>Air Pollution Assessment in a Resource Constrained World <i>Chairs: Adetoun Mustapha, Nigeria &amp; Eric Coker, United States</i></p> <p>Leveraging low-cost air quality sensors and machine learning techniques for air pollution assessment and prediction in urban Ghana, <i>A Kofi Amegah, Ghana</i></p> <p>Application of an ultra-low-cost passive sampler for light-absorbing carbon in India and Mongolia, <i>Bujin Bekbulat, United States</i></p> <p>Particulate matter measurement in South Africa: are the right questions being asked?, <i>Oyewale Mayowa Marakinyo, Nigeria</i></p> <p>Lessons learnt on air pollution assessment around schools in Warri, Nigeria and the policy implications, <i>Adetoun Mustapha, Nigeria</i></p> <p>Local design and development of low-cost air sensing and data science methods in sub-Saharan Africa - lessons learnt from Uganda, <i>Engineer Balinamugisha, Uganda</i></p> <p>Satellites, mobile-monitoring, and fixed-site measurements to understand local variations in air pollution, globally: the view from Google, <i>Karin Taxen Bettman, United States</i></p>	<p><b>SYMPOSIUM 10</b></p> <p>Climate and Health: From Research to Policy in the Context of EU and Belmont Forum Funded Projects <i>Chairs: Matthew Chersich, South Africa &amp; Vlatka Matkovic, Belgium</i></p> <p>A decade of EU funded Research in Climate, Environment and Health: a review and future perspectives under Horizon Europe, <i>Richard Tavares, Belgium</i></p> <p>Belmont Forum Climate, Environment and Health Collaborative Research Action: current projects and future perspectives, <i>Caroline Culshaw, United Kingdom</i></p> <p>The ENBEL project: From research findings to policy, <i>Kristin Aunan, Norway</i></p> <p>The CHAMNHA project: defining heat impacts on maternal and neonatal health and testing adaptive interventions in Burkina Faso and Kenya, <i>Adelaide M Lusambili, Kenya</i></p> <p>(Protection, Resilience, Efficiency and Prevention) (PREP), preparing workers and employers for a changing climate, <i>Jason Glosser, United States</i></p> <p>The role of adaptation measures in contrasting heat-related health effects among vulnerable groups: a review from the EXHAUSTION European project, <i>Franческа de Donato, Italy</i></p>	<p><b>TRADITIONAL ORAL SESSION 12</b></p> <p><b>Environmental Exposures and Neurodevelopment</b> <i>Chairs: Youssef Oulhate, United States &amp; Raanan Raz, Israel</i></p> <p>Prenatal Triclosan Exposure and Neurodevelopment of 2-Year-Old Children in Shanghai, China, <i>Yanjie Ren, China</i></p> <p>Systematic Review and Meta-analysis on Association Between Air Pollutants and Hippocampal Volume from Magnetic Resonance Imaging in Adults, <i>Erica Balboni, Italy</i></p> <p>Sex-specific associations of prenatal metal exposures with longitudinal child behavior in the New Hampshire Birth Cohort Study, <i>Julia Anglen Bauer, United States</i></p> <p>Neurodevelopmental effects of prenatal co-exposure to heavy metals and phthalates, <i>Duramio Anestis, Greece</i></p> <p>Building blocks of executive function as mediators of the association of prenatal manganese exposure with problem-solving skills among adolescents, <i>Anna Oppenheimer, United States</i></p> <p>In-utero exposure to indoor air pollution or tobacco smoke and cognitive development in a South African birth cohort study, <i>Anke Huelts, United States</i></p>

Time (EDT, GMT-4)	Statue of Liberty Hall (Hall 1)	Brooklyn Bridge Hall (Hall 2)	Times Square Hall (Hall 3)	Empire State Building Hall (Hall 4)	Grand Central Hall (Hall 5)
<b>AUGUST 26 - THURSDAY</b>					
07:30 - 08:30	<p><b>E-POSTER DISCUSSION 15</b></p> <p><b>New Evidence for Air Pollution-related Adverse Health Effects from Asia</b> Chairs: Poornima Prabhakaran, India &amp; Shu-Li Wang, Taiwan</p> <p>Association between air pollution and hospital admissions for upper respiratory tract infection among children in urban area, Malaysia, <b>Mohd Faiz Ibrahim, Malaysia</b></p> <p>The Effects of Ambient Air Pollution and Residential Greenness on Metabolic Disease Biomarkers in China, <b>John S. Ji, China</b></p> <p>Association between Specific PM2.5 Chemical Constituents and Preterm Birth in China: A National Birth Cohort Study, <b>Qin Li, China</b></p> <p>Mortality burden attributable to long-term exposure to ambient PM2.5: a systematic subnational analysis in 296 Chinese cities, <b>Chunlei Han, Australia</b></p> <p>Spatial variation of outdoor and indoor NO2 in metropolitan cities in India, <b>Prince Vijay, India</b></p>	<p><b>PANEL DISCUSSION 8</b></p> <p><b>Air Pollution and Dementia: Understanding the Underlying Biological Mechanisms</b> Chair: Anna Oudin, Sweden</p> <p><b>Anna Oudin, Sweden</b> <b>Liljan Calderon-Garcidueñas, United States</b> <b>Zorana Jovanovic Andersen, Denmark</b> <b>Katja Kanninen, Finland</b> <b>Pavel Rössner, Czech Republic</b></p>	<p><b>07:30 - 09:00</b></p> <p><b>TRADITIONAL ORAL SESSION 23</b></p> <p><b>Ultrafine Particles and Health</b> Chairs: <b>Scott Weichenthal, Canada &amp; Dimitris Evangelopoulos, United Kingdom</b></p> <p>Transcriptomics reveals the mechanisms of population susceptibility to blood glucose associated with short-term exposure to ambient fine and ultrafine particles, <b>Yuan Yao, China</b></p> <p>Associations between Short-Term Exposure to Particulate Matter and Ultrafine Particles with Lung Function in Schoolchildren from the German CopPUSCula Study, <b>Lina Glaubitsz, Germany</b></p> <p>Short-term risk effects of exposure to ultrafine particles on emergency department visits of renal diseases in New York State, 2013-2017, <b>Xinkei Deng, United States</b></p> <p>Short-Term Particulate Matter, Ultrafine Particles, and Blood Pressure among Children of the CopPUSCula Study in Munich, Germany, <b>Sarah Lucht, Germany</b></p> <p>Predicting Within-City Variations in Ultrafine Particle and Black Carbon Concentrations in Bucaramanga, Columbia Using Open Source Data and Images, <b>Marshall Lloyd, Canada</b></p>	<p><b>07:30 - 09:00</b></p> <p><b>TRADITIONAL ORAL SESSION 24</b></p> <p><b>Urban Living and Ageing and Longevity</b> Chairs: <b>Payam Dadvand, Spain &amp; Cuicui Wang, United States</b></p> <p>Developing robust indicators of age-friendly neighborhood environments across urban-rural and socioeconomic gradients in 20 countries from five continents, <b>Emily J Rugel, Australia</b></p> <p>Urban active living environments and cardiovascular disease mortality: a Canadian national cohort study, <b>Paul Villeneuve, Canada</b></p> <p>Exposure to air pollution, blue and green spaces and cause-specific mortality in Greece: An ecological study, <b>Maria Ioannina Kasdagli, Greece</b></p> <p>Effect of heatwaves and greenness on mortality among Chinese elderly people, <b>Haofan Zhang, China</b></p> <p>Green spaces and risk of dementia-related mortality among the elderly in urban areas in Belgium: a 13-year follow-up census-based study, <b>Lucia Rodriguez Loureiro, Belgium</b></p> <p>Does urban greenspace reduce racial and socioeconomic disparities in mortality in Philadelphia, PA?, <b>Leah H Chinai, United States</b></p>	<p><b>07:30 - 09:00</b></p> <p><b>TRADITIONAL ORAL SESSION 25</b></p> <p><b>Perfluoroalkyl Substances and Health Across the Life Course</b> Chairs: <b>Atsuko Araki, Japan &amp; Zeyan Liew, United States</b></p> <p>Perfluoroalkyl and Polyfluoroalkyl Substances and Body Size and Composition Trajectories: the Study of Women's Health Across the Nation 1999-2018, <b>Ning Ding, United States</b></p> <p>Association between prenatal exposure to perfluoroalkyl substances (PFAS) and acute infectious diseases in infancy in Shandong, China, <b>Zilia Wang, China</b></p> <p>Perfluoroalkyl substances and risk of myocardial infarction and stroke, <b>Tessa Schilleman, Sweden</b></p> <p>Associations between liver PFAS concentrations and plasma extracellular miRNAs in a cohort of adolescents undergoing bariatric surgery, <b>Nikos Stratakis, United States</b></p> <p>Longitudinal analysis of DNA methylation in relation to gestational perfluoroalkyl substance exposure: An epigenome-wide association study, <b>Yun Liu, United States</b></p>
08:30 - 09:30	<p>MORNING NETWORK &amp; E-POSTER VIEWING</p> <p>Poster Viewing Groups (PVG): PVG 43 / PVG 44 / PVG 45 / PVG 46</p>				
09:30 - 11:00	<p><b>KEYNOTE SESSION 4</b></p> <p>Chairs: <b>Beate Ritz, United States &amp; Joel Kaufman, United States</b></p> <p>Breaking the impasse in pesticide and health research risk reduction effectiveness in Africa <b>Andrea Rother, South Africa</b></p> <p>Impacts of Developmental Exposure to Environmental Chemicals on Human Health: The Hokkaido Birth Cohort Study with Global Perspectives <b>Reiko Kishi (ISEE John Goldsmith Awardee), Japan</b></p>				
11:00 - 11:30	<b>BREAK</b>				
11:30 - 13:00	<p><b>TRADITIONAL ORAL SESSION 26</b></p> <p><b>Occupational Exposures and Health</b> Chairs: <b>Yue-Liang Guo, Australia &amp; Huichu Li, United States</b></p> <p>Low-level radon exposure and lung cancer in the Pooled Uranium Miners Analysis (PUMA), <b>David B Richardson, United States</b></p> <p>Health Services Use and Health Outcomes among Informal Economy Workers Compared with Formal Economy Workers: A Systematic Review and Meta-Analysis, <b>Nisha Naicker, South Africa</b></p> <p>Canadian Aquaculture: Supporting the need to develop sentinel surveillance programs for antimicrobial resistance among Canadian marine aquaculture facilities, <b>Guy Ochs, Canada</b></p> <p>Impact of chronic exposure to naphthalene on physical disorders and neuroasthenic symptoms among petrol station workers, <b>Lugman Riaz, Pakistan</b></p> <p>SARS-CoV-2 pandemic among Mexico's private sector workforce: using short-term disability claims to analyze impact and response, <b>Marcelo Tamayo, Mexico</b></p>	<p><b>SYMPOSIUM 23</b></p> <p><b>Coordination and Harmonisation of Occupational Cohorts, the International OMEGA-NET Network</b> Chairs: <b>Ingrid Sivesind Mehlum, Norway &amp; Michelle Turner, Spain</b></p> <p>Network on the Coordination and Harmonisation of European Occupational Cohorts (OMEGA-NET), <b>Ingrid Sivesind Mehlum, Norway</b></p> <p>Precarious employment - a theoretical framework for research in occupational health, <b>Manolis Kogevinas, Spain</b></p> <p>COVID-19 and the Workplace, <b>Lode Godderis, Belgium</b></p> <p>What is needed for federated learning in occupational cohorts?, <b>Rael Vermeulen, Netherlands</b></p> <p>Occupational Cohort Studies in North America: Opportunities for Collaboration with OMEGA-NET partners, <b>Kaitlin Kelly Reif, United States</b></p>	<p><b>SYMPOSIUM 24</b></p> <p><b>Towards 'Pesticidovigilance': Do We Have the Tools to Monitor Pesticide Exposures Related Health Outcomes in Vulnerable Populations?</b> Chairs: <b>Roel Vermeulen, Netherlands &amp; Beate Ritz, United States</b></p> <p>Pesticide Exposure, Systems Biology, and Parkinson's disease, <b>Kimberly Paul, United States</b></p> <p>Environmental pesticide concentrations in air and pregnant women's urinary pesticide metabolites in the Infants' Environmental Health Study (ISA), <b>Berna Van Wendel De Zoort, Costa Rica</b></p> <p>Pesticide monitoring of vulnerable populations in Uganda and South Africa, <b>Samuel Fuhrmann, Switzerland</b></p> <p>From modeling, measuring, to exposomics - a Roadmap to pesticidovigilance, <b>Roel Vermeulen, Netherlands</b></p> <p>Linking Pesticide Use Records and Birth Certificates in Arizona, <b>Melissa Furlong, United States</b></p>	<p><b>TRADITIONAL ORAL SESSION 27</b></p> <p><b>Links between Air Pollution and Children's and Reproductive Outcomes</b> Chairs: <b>Marie Pedersen, Denmark &amp; Carmen Messerlian, United States</b></p> <p>Association between ambient air pollution prior to initiation of in vitro fertilization and fertilization rates, pregnancy, and live birth, <b>Sabah M. Quraishi, United States</b></p> <p>Association between prenatal exposures to ambient air pollutants and preterm birth in the Atlanta African American Mother-Child Cohort, <b>Donghai Liang, United States</b></p> <p>Ambient air pollution exposure during pregnancy and cardio-metabolic markers in cord blood: The Healthy Start study, <b>Chloe Friedman, United States</b></p> <p>Combined Effects of Air Pollutants on Gestational Diabetes Mellitus: a Prospective Cohort Study, <b>Wenju Liu, China</b></p> <p>Prenatal air pollution exposure and adverse birth outcomes: windows of susceptibility and socio-economic inequalities, <b>Michiel Arjen Van Den Dries, Netherlands</b></p> <p>Exposure to PM2.5 during pregnancy and ultrasound parameters of fetal growth in Massachusetts, USA, <b>Michael Leung, United States</b></p>	<p><b>TRADITIONAL ORAL SESSION 28</b></p> <p><b>Environmental Metabolomics</b> Chairs: <b>Donghai Liang, United States &amp; Zhonghua Chen, United States</b></p> <p>Untargeted Metabolomics Reveals that Multiple Reproductive Toxicants are Present in the Endometrium, <b>Emily L Silva, United States</b></p> <p>High-resolution metabolomics of exposure to tobacco smoke during pregnancy and adverse birth outcomes in the Atlanta African American Maternal-Child cohort, <b>Youran Tan, United States</b></p> <p>Using non-targeted screening and silicone wristbands to investigate geographic differences in pollution exposures among maternal and cord sera, <b>Dana E Galin, United States</b></p> <p>Gestational Perfluoroalkyl Exposure and Childhood Metabolome at Age 8 Years, <b>Nan Li, United States</b></p> <p>Trace elements and plasma metabolomics in a general population from Spain: The Hortega Study, <b>Marta Gálvez Fernández, Spain</b></p> <p>Metabolomics and gene expression profiles in association with air pollution exposure mixtures among young adults with asthma, <b>Haoen Liao, United States</b></p>
13:00 - 14:00	<p>NETWORKING &amp; E-POSTER VIEWING SLOTS</p> <p>Poster Viewing Groups (PVG): PVG 47 / PVG 48 / PVG 49 / PVG 50</p>

Time (EDT, GMT-4)	Statue of Liberty Hall (Hall 1)	Brooklyn Bridge Hall (Hall 2)	Times Square Hall (Hall 3)	Empire State Building Hall (Hall 4)	Grand Central Hall (Hall 5)
14:00 - 15:00	<p>PANEL DISCUSSION 9</p> <p>The Next Climate Horizon: Training Health Professionals Globally for 1.5 Degrees and Beyond <i>Chair: Cecilia Sorensen, United States</i></p> <p><i>John Balbus, United States</i> <i>Jay Lemery, United States</i> <i>Brittany Shea, United States</i> <i>Michael Schmelz, United States</i></p>	<p>LIGHTNING TALKS 10</p> <p>Biomarkers in Human Studies <i>Chairs: Allison Kupsco, United States &amp; Anne Bozack, United States</i></p> <p>Prenatal metal exposure, cord blood DNA methylation and persistence in childhood: epigenome-wide association study of twelve metals, <i>Anne K. Bozack, United States</i> Epigenome-wide DNA Methylation in Leukocyte and Toenail Metals: the Normative Aging Study, <i>Caici Wang, United States</i> Effect of metal co-exposures on DNA methylation age in Bangladeshi children, <i>Maria Arpas, United States</i> Short-term Exposure to PM2.5 and Epigenetic Aging: A Quasi-Experimental Study, <i>Xu Gao, China</i> Exposure to Air Pollutants, Circulating miRNAs, and Cardiometabolic Health among Young Adults, <i>William B. Patterson, United States</i> An environment wide association study on body mass index in adolescents using 2003-2004 and 2013-2014 NHANES data, <i>Nadine Haddad, Cyprus</i> Arsenic concentrations in the placenta are associated with dysregulation of placental microRNA expression, <i>Jesse M. Tahrani, United States</i> The Oxidative Potential of Fine Particulate Matter and Metabolic Perturbations in Plasma and Saliva, <i>Ziyin Tang, United States</i> Effects of prenatal exposure to phthalates and Hexamol<sup>®</sup> DINCH derived from urinary untargeted metabolomics analysis, <i>Nafsika Papaioannou, Greece</i> Metabolic signatures of youth exposure to per- and polyfluoroalkyl substances, <i>Jesse A. Goodrich, United States</i></p>	<p>LIGHTNING TALKS 11</p> <p>Exposure Assessment for Environmental Epidemiology <i>Chairs: Jesse Berman, United States &amp; Apolline Soucy, Spain</i></p> <p>Uncertainty Characterization in PM2.5 Estimates Across the Contiguous US, <i>Sebastian Thonet Rowland, United States</i> Using a mobile monitoring campaign to characterize average exposures to ultrafine particulate matter and black carbon for a Seattle-based cohort, <i>Magali N. Blanco, United States</i> Design and evaluation of mobile monitoring campaigns for exposure assessment in epidemiologic cohorts, <i>Liane Sheppard, United States</i> Real-time characterization of personalized air pollution exposure in pregnant women participating in a birth cohort study, <i>Akhgar Ghassabian, United States</i> Integrating monitor wearing to estimate household air pollution exposure parameters in the Ghana Randomized Air Pollution and Health Study (GRAPHHS), <i>Carlos F. Gould, United States</i> 50 chemical exposures of concern discovered using wearable passive samplers and gas chromatography high-resolution mass spectrometry in South African children, <i>Krystal J. Godri Pollitt, United States</i> Contributions of nearby agricultural insecticide applications to indoor residential exposures, <i>Jessica M. Madrigal, United States</i> Exposure to Unconventional Oil and Gas Development and All-cause Mortality in Medicare Beneficiaries, <i>Longxiang Li, United States</i> Openly accessible low-cost measurements in PM2.5 exposure modeling: guidance for monitor deployment, <i>Jianzhao Bi, United States</i></p>	<p>TRADITIONAL ORAL SESSION 29</p> <p>Environmental Policy-relevant Research <i>Chairs: Martin Tondei, Sweden &amp; Melissa Fiffer, United States</i></p> <p>Economic cost of local attributable burden disease to PM2.5 ambient air pollution in Medellin, Colombia, 2010-2016, <i>Juan Gabriel Pineres Jimenez, Colombia</i> Health Burden Attributable to Increased PM2.5 Exposures and Potential Exposure Reductions during the 2020 Washington State Wildfire Smoke Episode, <i>Yisi Liu, United States</i> Health Effects of Hydrogen Sulfide Exposures: A Review of the Evidence Pertaining to Low Level Exposures, <i>Amelia Grant Afferi, United States</i> GFR decline and prior dysuria among Nicaraguan sugarcane workers, <i>Zsuzsanna Jeney, United States</i> The global distribution of pesticide poisoning: Implications for vulnerable populations, environmental health and equity in a shifting global policy climate, <i>Emily Marquez, United States</i></p> <p>Policy implications of research on "Environmental Policy-relevant Research" Discussion by <i>Adetoun Mustapha, Nigeria</i></p>	<p>E-POSTER DISCUSSION 16</p> <p>Extreme Weather Events (Wildfires, Tropical Cyclones, Droughts, etc.) - Exposure Assessment &amp; Related Adverse Health Outcomes <i>Chairs: Brooke Anderson, United States &amp; Aina Roca Barcelo, United Kingdom</i></p> <p>Applications of Synthetic Tracks for North Atlantic Tropical Climate Health Impact Assessment, <i>Daniel Dean, United States</i> Excess mortality in the Colorado Front Range during the COVID-19 pandemic and a concurrent intense wildfire season, <i>Sheena E. Martenes, United States</i> Impact of Wildland Fire Smoke Exposure on Acute Cardiovascular Responses among Wildland Firefighters Working at Prescribed Burns, <i>Chieh-Ming Wu, United States</i> Chronic obstructive pulmonary disease (COPD) attributable to ozone in Germany: Burden of disease estimates for the years 2007-2016, <i>Susanne Bretzner, Germany</i> Sixteen years analysis of PM2.5 and mortality in Kuwait, <i>Barak Alahmad, Kuwait</i> Predicting high-resolution spatial and temporal variations in summer air temperatures and its effect on asthma and myocardial-infarctions in Montreal, Canada, <i>Tuivere Onokome Okome, Canada</i></p>
15:00 - 15:30	<p>SYMPOSIUM 25</p> <p>The European Human Exposure Network <i>Chairs: Ruel Vermeulen, Netherlands &amp; Joakim Dillner, Sweden</i></p> <p>Decoding our environment: The European Human Exposure Network, <i>Ruel Vermeulen, Netherlands</i> FAIRification of data: Great but how?, <i>Morris Swertz, Netherlands</i> Ethics by Design in Exposure Research, <i>Caspar Willem Saffariou, Netherlands - cn, Netherlands</i> Big data does not equal big knowledge: A need for causal insights, <i>Sylvain Sebert, Finland</i></p>	<p>TRADITIONAL ORAL SESSION 30</p> <p>Temperature and Health <i>Chairs: Ana Maria Vicedo-Cabrera, Switzerland &amp; Robbie Parks, United States</i></p> <p>Ambient warming and human sleep duration and timing: a worldwide case-crossover study using big data from wearable devices, <i>Kelton Minor, United States</i> Urbanization and Heat-mortality risk in Korea and Japan, <i>Whanhee Lee, United States</i> Vulnerability factors driving differential patterns in the heat-related mortality between rural and urban areas in Switzerland, <i>Evan De Schrijver, Switzerland</i> Effects of long-term average temperature and temperature variability on cardiovascular disease hospitalizations in the US Medicare population, <i>Jachem O. Klompmaker, United States</i> Adapting to the heat? Extreme temperature and birth outcomes over time in Spain, 1985-2016, <i>Risto Conte Keivola, Italy</i> Changing heat impacts on mortality and implications for mitigation planning in New York City, <i>Kazuhiko Ito, United States</i></p>	<p>SYMPOSIUM 26</p> <p>Diet as Complementary Opportunity to Mitigate Effects of Environmental Pollutants on Health Outcomes <i>Chairs: Nasser Louali, United States &amp; Youssef Oulhote, United States</i></p> <p>Maternal diet as a modifier of environmental risk factors for child neurodevelopmental outcomes: Existing evidence and future directions, <i>Kristen Lyall, United States</i> Associations between blood lead and urinary cadmium levels and mortality, and effect modification by dietary inflammatory index, <i>Nasser Louali, France</i> Antioxidant intake and the relationship between Air Pollution and Birth Defects: A comparison of approaches for effect modification, <i>Joanette A. Stangor, United States</i> Micronutrient intake is associated with reductions in chemical exposure effects on blood pressure of electronic waste recyclers at Apogbloshe, Ghana, <i>Sylvia Akpene Takyi, Ghana</i> Ambient air pollution, psychological stress, and early childhood respiratory outcomes: Modifying effects of prenatal maternal diet, sex, and race/ethnicity, <i>Rosalind J. Wright, United States</i> Opportunities and challenges when modeling heterogeneous effects with high-dimensional data, <i>Tarik Benmarhnia, United States</i></p>	<p>TRADITIONAL ORAL SESSION 31</p> <p>Exposure to Metals and Adverse Health Outcomes <i>Chairs: Tiffany Sanchez, United States &amp; Meghan Tigra, United States</i></p> <p>Association between prenatal metals exposure and childhood lung function, <i>Cecilia Sara Alcalá, United States</i> Metal co-exposures and telomere length in Bangladeshi children, <i>Shohreh F. Farzan, United States</i> Prenatal Exposure to Toxic Metal Mixtures and Risk of Bacterial Sepsis in Extremely Low Gestational Age Newborns, <i>Catherine M. Bulko, United States</i> Urinary Metal Mixtures and Incident Metabolic Syndrome in Midlife Women: the Study of Women's Health Across the Nation (SWAN), <i>Xin Wang, United States</i> Environmental metals and metal mixtures and renal disease in an adult population from Spain: the Aragon Workers Health Study, <i>Maria Grau Perez, Spain</i> Cadmium and lead exposure and risk of dementia in a Swedish population-based cohort: The Malmo Diet and Cancer Study, <i>Florenca Harari, Sweden</i></p>	<p>TRADITIONAL ORAL SESSION 32</p> <p>Infections (Including COVID-19) and the Environment <i>Chairs: Manolis Kogevinas, Spain &amp; Olayinka Osunleke, Nigeria</i></p> <p>Applying a multiple exposures framework to explore complex spatial inequalities of Covid-19-related excess mortality in Lombardy region of Northern Italy, <i>Eric S. Coker, United States</i> Ambient air pollution and risk of SARS-CoV-2 infection and of COVID-19 disease in a cohort study in Catalonia (COVIDAT Cohort), <i>Manolis Kogevinas, Spain</i> Impact of the COVID-19 lockdown policies on reducing air pollution levels and related deaths in Europe, <i>Rochelle Schneider, Italy</i> Longer- and Shorter-term Air Pollution Exposure Associated with COVID-19 Severity and Mortality: A Large Cohort Study in Southern California, <i>Zhanghua Chen, United States</i> Associations between SARS-CoV-2 concentration in wastewater and sludge and measures of COVID-19 cases in three communities, <i>Weyssa Annesser, United States</i> Impact of COVID-19 on household energy use in Ghana, <i>Theresa Afia Serwaa Tawiah, Ghana</i></p>
17:00 - 17:30	<p>E-POSTER DISCUSSION 17</p> <p>Methods to Assess Exposure to Environmental Mixtures <i>Chairs: Tom Webster, United States &amp; Anke Huels, United States</i></p> <p>Principal component pursuit for exposure pattern recognition: an application to persistent organic pollutants and leukocyte telomere length, <i>Lawrence Gardner Chillrud, United States</i> Machine Learning Approaches for Environmental Mixtures Studies with Time-to-Event Outcomes and their Application to the Strong Heart Study, <i>Melanie Mayer, United States</i> Hormone concentrations mediate the associations between exposure to phthalate mixtures and preterm birth, <i>Amber L. Cathey, United States</i> Environmental Mixture Methods: Recommendations to Promote Robust Results in the Presence of Random Sampling, <i>Elizabeth A. Gibson, United States</i> Having your cake (mix) and eating it too: Independent, interaction, and group effects of mixtures using Bayesian Hierarchical Regression Modelling, <i>Erika Garcia, United States</i> Mixture effects of prenatal exposure to per- and polyfluoroalkyl substances and polybrominated diphenyl ethers on maternal and newborn telomere length, <i>Stephanie Eick, United States</i></p>	<p>E-POSTER DISCUSSION 18</p> <p>Climate and Temperature and Health <i>Chairs: Allan Just, United States &amp; Josiah Kephart, United States</i></p> <p>Ambient temperature from satellite-hybrid models and preterm birth: A time-stratified case-crossover analysis of 70,000+ preterm births in Central Mexico, <i>Daniel Carrion, United States</i> Modeling complex effects of exposure to particulate matter and extreme heat during pregnancy on congenital heart defects, <i>Will Simmons, United States</i> Short-term effects of temperature on cardiovascular and respiratory mortality and its modification by air pollution in German cities, <i>Masna Rai, Germany</i> Long-term Exposure to Air Pollution and Temperature and Hospital Admissions with Cardiovascular Disease in the United States, <i>Mahdiyah Jonesh Yashi, United States</i> Ambient Heat and Risks of Emergency Department Visits among Adults in the United States, <i>Shengxi Sun, United States</i> Associations between PM2.5 and term low birth weight in a North Carolina cohort and effect modification by extreme heat events, <i>Thomas Luben, United States</i></p>	<p>BREAK</p>	<p>SNRN 3</p> <p>MEET THE EDITORS SESSION</p> <p><i>Chairs: Agatha Ibekpobaaku, Nigeria &amp; Yanelli Nunez, United States</i></p> <p><i>Editors:</i> <i>Environmental Health Perspectives: Joel D. Kaufman, United States</i> <i>Epidemiology: Stephanie Landon, United States</i></p>
